## Suspect Caught After Holdup at Emmit's Market

Other Area Thefts  
Include Burglaries  
At Homes in GC

A young bandit robbed Emmit's market, 2700 Edwards street, at 2:45 p.m. Friday, later abandoning a grey and white 1961 station wagon in which he had fled into the Kirkpatrick Homes area.

A suspect was arrested Sunday on an armed robbery charge.

He was identified by police as Roger Wallace, 21, of 2801 Warren avenue, who was taken into custody at his home. Police had received a detailed description of the bandit.

Wallace is scheduled to appear in a lineup this afternoon. The amount of the loot was undetermined. None of the money was recovered, police said.

The suspect was held on \$25,000 bond set by Magistrate William Johnson.

Those in the grocery store at the time included the manager Henry Metcalf, 3400 Lydia lane; two cashiers, Mrs. Sharon Young, 2612 East 24th street, and Mrs. Margaret Dawdy, 2624 Victory drive; and a customer, Mrs. Nettie Coon, 406 Kirkpatrick Homes. Other shoppers were unaware of the incident.

Metcalf first noticed the youth browsing along shelves of food. During a lull in customers at the check-out counter, the robber approached, flourished a gun and said, "This is a stickup. Give me all the money."

The cashiers related to the Press-Record that they looked at Metcalf, who told them, "Go ahead."

They handed the robber all the currency in the two registers that were in use, but did not open a third register.

He seemed disappointed with the amount and ordered, "I mean all of it." Told that "you've got it all," he replied, "Good." Mrs. Young recalled that "he was shaking like a leaf."

Stuffing the bills in his pocket.

## Venice Council Buys 2 Police Cars on Low Bid

Purchase of two new squad cars for the police department was authorized by the Venice City Council during a regular meeting Friday night on a low bid submitted by the Brewer Motor Co. of Granite City.

Both new cars were bought at a joint bid price of \$12,125, including all special police equipment and exchange of old cars for the new ones. The Brewer firm bid a flat price of \$915,000 per year for five cars, less a trade-in allowance of \$4888 on the present police cars.

Only other bidder was Broderick Motor Co., East St. Louis, which submitted an offer of \$4710 for two cars plus \$73 for transferring equipment.

The council approved a resolution transferring \$20,000 from the McKinley Bridge Replication and Improvement Fund to the city's Broadway underpass fund under a plan by which the city would provide \$100,000 of the underpass construction cost.

## \$80,000 in Fund

The transfer Friday night was the fourth annual transfer of \$20,000, making a total of \$80,000 now placed in the fund by the bridge administration.

Under the program, the bridge administration is to provide \$20,000 per year for five years to make up its share.

Mayor John E. Lee said that when the city's phase of construction work on the underpass gets under way, all bills will be paid first out of this fund to permit the city's regular revenue to remain invested in time certificates as far as possible.

Comptroller Carl Byrnes reported during the meeting that the city received \$100,000 from the city's regular revenue for investment in the city underpass escrow fund.

The council presented to the council a report on receipt of the fund.

## Program for Assistance to Neighbors Is Launched Here

A "Good Neighbor" organization, currently being formed on the basic premise of families helping each other should the need arise, held its first formal meeting Thursday evening at St. Elizabeth Catholic Church.

About 20 persons attending the initial session heard Jerome Distler, who served as temporary chairman, explain the plan, through which families residing in St. Elizabeth parish would be assisted by members of the organization in the event of a major fire in their home or a similar disaster.

Distler, who conceived the idea of an organized group of helpful neighbors, said 85 persons have listed their names, indicating their willingness to help in the program.

Recent flooding in parts of the parish area when many families turned to their neighbors for aid was among the reasons given for forming such a group.

## First Report in United Fund Drive Due Wednesday

United Fund campaign leaders and volunteers will submit their first reports in this year's \$465,000 drive during a "ditch treat" luncheon Wednesday at the YMCA.

This year's campaign was officially launched the weekend of Sept. 27-28 with the United Fund Fair at the Wilson Park rink pavilion at which over \$8000 was raised by various non-agency organizations in a community effort.

The campaign report sessions will be presided over by Leo Koenen, general chairman, and George Becker, co-chairman, aided by David L. Norton, UF executive director.

The second report meeting is set for Oct. 15 and also will be a luncheon meeting at the YMCA.

Drive Chairman Koenen said the final report will be made at an afternoon public meeting on Oct. 29. He noted that the \$465,000 goal is needed to provide funds for the 19 United Fund agencies serving the Quad-Cities area.

## Police Probe Arson Attempt at Residence

Madison police were investigating today an attempt to set fire early Saturday morning to the garage at the home of Raymond Garcia, 2000 McCasland avenue. Police said they were called about 2:20 a.m. by Mrs. Garcia, who told them she heard a noise and when she looked out the window saw several men drive away in a white car. She then saw the garage was on fire, police reported.

## \$100 Fine Stayed Juvenile Court Declared Legal

State's Atty. R. W. Griffith was fined \$100 on a charge of contempt of court, and the courtroom was ordered closed by Circuit Judge William Beatty Friday afternoon.

The fine was stayed on Griffith's attorney, John Gitchett, submitted a written apology for actions by the state's attorney during a dispute in the juvenile courtroom Wednesday afternoon.

Griffith had claimed that the juvenile courtroom was not legally constituted and told Judge Beatty that he would order his assistant state attorneys not to appear in the court at the detention home.

Judicial flames were ignited Wednesday morning when Amerik Kachigian of Granite City, an assistant state attorney, was held in contempt of court and fined \$50 for showing up late for a juvenile hearing.

Griffith, upon being informed of the action, appeared later and claimed that he, and not Kachigian, should have been present to any fine because Kachigian was assigned as a substitute and had been unaware of the hearing.

On Wednesday morning, Judge Beatty noted that the time of the court, two attorneys and witnesses were present. In his order, Judge Beatty noted that the county detention home act was adopted by referendum provided for courtroom facilities.

The court has conducted more than 45 hearings on matters under the juvenile court act at the detention home since it was opened on Sept. 8, with the people of the state being represented by the state's attorney.

Griffith was not on hand at the hearing and was absent from the courtroom on Thursday afternoon.

## States Pledge Mutual Aid in Clean Air Fight

Cooperation between Illinois and Missouri in enforcement of air pollution control regulations has been accomplished for the first time as the result of a meeting in St. Louis Friday between officials of both states.

Victor H. Koenig, Granite City civil defense director, a guest at the meeting, said Friday that he intends to acquaint other area church groups with the St. Elizabeth plan and ask their cooperation in forming similar programs.

"I believe such a program is a valuable asset to the entire community and should be promoted by the church groups in all of the comparable groups in other sections of the city," he said.

At Thursday's session, GC Mayor John E. Lee said that the Madison county board of supervisors would be required to reappear by July 1, 1971, or face reappointment by a special commission was signed into law at Springfield Friday.

Under provisions of the new law, if eventually applied, membership of the Madison county board would be cut from 48 to 29, the maximum allowed by the new law.

The bills create a new office of "county board member" to present township supervisors and their assistants who now make up the county boards in all but 17 counties with the commission form of government.

## Scott Seeks Evidence From U. S. Auto Probe

Attorney General William J. Scott on Friday petitioned the California Federal Court to impound evidence collected during a four-year federal investigation of an alleged conspiracy by major automobile manufacturers to obstruct development of auto anti-pollution control devices.

"We want to examine this evidence, and all other evidence, to determine whether a pollution or antitrust suit should be filed in Illinois against the automotive manufacturers," Scott said. The evidence was part of an antitrust suit filed by the U. S. Justice Department in January against four major auto makers and the Automobile Manufacturers Association.

The suit is now in the process of being settled. A proposed consent decree between the Justice Department and the auto makers was filed Sept. 1 in the U. S. District Court of Los Angeles. It prohibits the auto makers from further obstructing development and installation of the anti-pollution devices.

"Our intervention on behalf of the state of Illinois is not to question the settlement, but to ensure that the evidence is preserved by court order," Scott said.

Pollution control has been a prime goal of the Scott administration. During the recent state legislative session, new laws cracking down on pollution violators were drafted by Scott and passed by the Illinois General Assembly.

Since they became law July 1, the attorney general has filed suits against an agency of government, the North Shore Sanitary District in Lake county, and against the U. S. Steel Corp. He also has opposed any rate increase for the Commonwealth Edison utility as long as it remains a major polluter of the Chicago area.

## School Signal Downed

An auto driven by Jerry L. LeMaster, 2138 Benton street, ran off the road and knocked over a school crossing signal at St. Elizabeth school on Pontoon road at 4:05 p.m. Thursday. LeMaster was charged with careless driving.

## Red Cross Ditty Bags Now Enroute to Vietnam

Normally a busy place, even more activity than usual was observed at the Tri-City Red Cross office, 1411 Twenty-first street, last week, as members of local women's groups and individuals delivered quantities of "ditty bags" for shipment to servicemen in Vietnam as Christmas gifts.

The small red and green fabric sacks, filled to capacity with assorted gift items, were packed into 13 large containers by Red Cross volunteers, Mrs. Julia Davis, Mrs. Mildred Feihling and Mrs. Ruby Waters, assisted by Mrs. Mildred Meehan, local ARC staff member.

The entire shipment, weighing several hundred pounds, was taken by truck to the main post office for the initial leg of a journey which will extend thousands of miles by train, boat and plane in order to reach the servicemen in time for Christmas.

The final distance, once the ditty bags arrive in Vietnam, may be covered by airborne "Santa Claus" more familiar with their usual role as pilots of helicopter gunships. The pilot transport quantities of the Red Cross gift bags on pallets, slung beneath their "copters, into the thick jungles and hazardous combat zones, mostly areas that are inaccessible to vehicular traffic.

About 450 gift bags were mailed to Vietnam by the Tri-City Red Cross chapter for distribution this Christmas to military personnel. Each serviceman or woman will receive a ditty bag whether he is serving in an established base area or stationed at an outpost where fighting continues day after day.

## Mother's Aid Course to Start in West Madison

A program that teaches older children in the family to help care for their younger brothers and sisters will start today at the West Memorial Center, in Madison. It was announced by Mrs. Anna Wilson, RN, of the Madison EOC Center staff.

About 30 mothers and daughters, the latter between the age of nine and 14 years, already have enrolled in the classes, which will be conducted at the West Memorial Center from 5:30 to 6:30 p.m. each Monday.

Mrs. Wilson, who will serve as instructor, said the course topics will focus on the care and hygiene of infants. Today's program will feature the psychology and physiology of a baby, with a real infant used to demonstrate the child's reaction to various situations, the registered nurse said.

Two life-size baby dolls will be utilized in subsequent classes for demonstrating purposes, Mrs. Wilson explained. Other topics to be covered include

bathing, feeding, dressing and holding an infant, and diaper changing techniques.

The mother's aid program is being sponsored by the Madison County Economic Opportunity Commission, through the EOC's Madison Neighborhood Center, in cooperation with St. Elizabeth Hospital's administrative staff.

Sisters from the local hospital will take part in the ensuing classes, which also will feature movies and other visual aids, Mrs. Wilson noted.

It is hoped that mothers and their daughters will take part in the program together, the nurse said. She pointed out that girls whose mothers can not participate may attend classes and an adult supervisor will be assigned to help them.

Miss Sue Billman of Greensboro, N.C., a VISTA Volunteer working with the Madison EOC Neighborhood Center staff, is helping to coordinate the mother's aid program.

## MP Recruitment Under Way by Army

Young men with an eye toward a career in law enforcement are getting experience and training in the Army's Military Police Corps, and at the same time fulfilling their military obligation, according to Sgt. Morris L. Cook, of the Army Recruiting Office at 1206 Niedringhaus avenue.

Sgt. Cook said that jobs are available in civilian law enforcement agencies all over the country and that men leaving the Army as military policemen are first in line for these jobs.

He added that military police perform foot or motor patrols, control pedestrian and vehicular traffic, quell disturbances, protect security sites, guard military prisoners of war, and other functions to enforce law and order and maintain control and discipline.

He pointed out that men deciding to make the Army a career may advance in their jobs to confinement supervisor, specializing in supervision of disciplinary guards. This part of law enforcement is carried out at large garrison confinement areas, regional stockades, rehabilitation centers, or at a U.S. Disciplinary Barracks.

Sgt. Cook also stated that other men may choose to specialize as criminal investigators who investigate incidents and offenses, and make inquiries into complaints and allegations involving government property and military and civilian people under the jurisdiction of the Army.

## Says Officials Misled In Postal Reform Plan

At least two governors and six mayors have requested their names be removed from the letterhead of the Citizens Committee for Postal Reform, Inc. in Washington, indicating that many mayors and governors have been "hoodwinked into supporting the administration's postal corporation scheme without full knowledge of what is involved," Ken Morton, president of Local 182 of the United Federation of Postal Clerks in Granite City, charged today.

Morton said that the co-chairman of the committee, former Postmaster General Larry O'Brien, and former GOP National Chairman Thurston Morton, failed to set out in their original letter of invitation that the committee was being created to lobby for a postal corporation as such.

"Many either didn't know this was a big business gimmick to support the corporation or thought they were endorsing the kind of postal reform proposed within the existing departmental framework by House Resolution 4," Morton added. "This bill sponsored by the chairman of the House Post Office and Civil Service Committee, our unqualified endorsement," he said.

Morton also accused O'Brien and Thurston Morton of "outrageously misleading the nation's mayors by claiming that postal reform would make a billion dollars a year available for urgent social purposes."

## Bryant-Nichols Wedding Takes Place in Dallas, Tex.

The wedding of Miss Frances Ann Nichols, a daughter of Mr. and Mrs. Albert G. Nichols of Dallas, Tex., and Eugene Sanford Bryant, whose parents are Mr. and Mrs. Maurice L. Bryant, 2416 Sheridan avenue, took place Saturday evening in Dallas.

The ceremony was performed at 8 o'clock in the Episcopal Church of the Good Shepherd with the Rev. Mortimer T. Bowman officiating. Dave Nichols, a brother of the bride, served as acolyte during the ceremony.

White roses adorned the altar and lighted candles illuminated the main aisle of the church.

Escorted by her father, the bride wore a gown of champagne light satin faille and imported re-embroidered Alencon lace. The Empire bodice, veiled with lace, was appliqued on English net. It was fashioned with a high ring neckline and long tightly fitted sleeves extending to petal points over the hands. Tiny self-covered buttons fastened the back of the gown and

the slim, A-line skirt was complemented with a chapel-length Watteau train gently gathered below the shoulders.

A veil of silk illusion extending beyond the train held in place a Camelet headpiece veiled with matching lace and a circle face veil. The bride held a bouquet of white roses centered with a single yellow rose.

The bride's attendants were in floor-length gowns of emerald green with long sleeves, bodices of velvet, fitted at the waists, and skirts and cummerbunds of green slipper satin. The skirts were tight and slit in the back. All four carried bouquets of yellow roses.

Miss Sue James was maid of honor, and Miss Polly Ritter of Ardmore, Okla., Miss Suzanne Lybarger of Oklahoma City, and Miss Helen Cooper of Dallas served as bridesmaids.

James Bolling of Stewart Air Force Base in Tennessee was best man for Mr. Bryant. The corps of groomsmen and ushers consisted of Dean Chittenden, Tulsa, Okla., Bruce Bryant and Robert Opich, both of Granite City, and Bud Nichols.

A reception was given by the bride's parents in their home, and the newlyweds left for a honeymoon in the Missouri Ozarks. They will live in Smyrna, Tenn.

## Miss Vicki Groves Becomes Bride of Larry Dillard

Rev. Martin Mangan performed the ceremony at 3 o'clock, and a reception was held afterward at the VFW Hall.

Mr. Groves gave his daughter to marriage. Her gown of white satin and lace had a Victorian neckline and long bishop sleeves trimmed with appliques of lace. The bodice was molded to the natural waistline to reveal a satin skirt, dome-shaped, with appliques of the same lace.

A chapel train was set off at the waist with an obi bow, and a fairy princess veil of silk illusion was held in place with a satin and pearl trimmed lace bonnet.

The bride carried a cascade of white roses and ivy with a corsage center of gardenias. Mark Gifford presided at the organ and accompanied the vocalist, Miss Leetta Marmion, as she sang "Until," "Ave Maria" and the Lord's Prayer.

Attendants were Miss Cathy Jung, maid of honor, and two cousins of the bride, Miss Rose Mary Dorough and Miss Phyllis Rosenberg, bridesmaids.

Harold J. Groves, the bride's brother, was best man, and Joe Mercer, Don Crawford, a cousin of the bride, David Rosenberg, and Mike Sigite served as groomsmen and ushers.

A gown of white satin and Venice lace was worn by the bride. The long sleeves were of lace, as was the collar, and the A-line skirt, with an inverted pleat in the front terminated in a train.

A row of tiny satin buttons trimmed the front of the bodice, and a veil of illusion was held in place with a white organza and lace bow sprinkled with pearls. The bride's crescent bouquet was made up of white carnations, white roses and greenery.

Mrs. Cheryl Grolls, a cousin of the bride, served as matron of honor, with two bridesmaids, Mrs. Sharon O'Keefe, and Miss

## Balcer-Lawless Wedding Ceremony in Kansas City

Another of the out of town weddings taking place over the weekend was that of Miss Michele Louise Lawless, a daughter of Mr. and Mrs. Martin J. Lawless of Kansas City, Mo., and Joseph S. Balcer, whose parents are Mr. and Mrs. Joseph A. Balcer, 2212 East 24th street.

Christ The King Catholic Church in Kansas City was the setting for the noon ceremony Saturday at which the Rev. John Mahan and Rev. Michael Rice officiated.

Arrangements of pink and white chrysanthemums decorated the sanctuary for the service which was followed by a reception in the Cashah Room of Hotel Bellevue.

The bride wore a gown of off-white peau de soie fashioned on Victorian lines. Venise lace motifs were placed on the Empire bodice with tuck stitching and repeated on the long leg of mutton sleeves. Pink velvet encircled the waist ending in a front self-trim bow. Motifs of lace also banded the hemline of the skirt.

A detachable train extended from the back waistline into a full sweep edged with more of the lace. A floor-length veil was held in place with a headpiece of pink velvet and off-white lace

and the bride carried a bouquet of pink and white cymbidium orchids and baby breath.

Four attendants preceded Miss Lawless and her father down the aisle. They were Mrs. James Mansour, a sister of the bride, matron of honor, and Miss Mary Alice Lawless, another sister, Mrs. Dick Parker and Miss Sharon Balcer, the bridegroom's sister, bridesmaids.

Their gowns, like the bride's, were Victorian in style. Floor-length, they were shirtwaist type with white bodices, bishop sleeves and navy blue chiffon skirts accented with pink satin buttons and belts. They carried nosegays of pink carnations.

Nick Hilger was best man for Mr. Balcer, and groomsmen and ushers included Terry Balcer, a brother of the groom, Jim Wirken, Russell Ward, Michael Lawless, the bride's brother, and Charles Evans.

After a wedding trip to New Orleans, the newlyweds will make their home in St. Louis.

The former Miss Lawless graduated from St. Mary College in Kaver, Kans., where she became a member of Kappa Gamma Pi and Delta Epsilon Sigma societies. She is employed as a computer analyst for the General American Life Insurance Co. Mr. Balcer graduated from Rockhurst Col-

# James' Runs Spark 26-6 Trojan Grid Victory

Harold James repeatedly pierced the unusual Triad night defense, leading the Trojans to a 26-6 triumph Friday evening at MHS.

Of the MHS net rushing gain of 342 yards, James carried for 168 yards and most of the 210-pounder's trips with the ball were through the middle of the line.

Harold James, 68 yards on 18 takes, and Willie Ackers, 36 yards on five runs, also did much of the damage up the middle.

Coach Al Vander Haar said, "Triad was using a strange defense. They weren't expecting us to hit so strongly up the middle, I guess. We tried it and found there wasn't anybody there."

"When we find a play that works, we almost run it to death, until they catch on. This one worked all night. The Triad defense consisted of a six-man line and an unbalanced backfield perhaps intended to be two safeties, two cornerbacks and a middle linebacker. But the backfield often made a hollow arc, leaving the middle linebacker position empty; that's where Trojan workhorse James carried the ball."

Credit for opening lanes through the solid six-man line went to the Trojan five-man interior offensive line of Tim Bennett, Harold Campbell, Dennis Smith, Bob Scott and Tony Young.

**Har-Johnson Situation?**  
Doug Smith started at quarterback for the Trojans but was spelled by Austin Lewis before halftime, which was a 6-6 dead lock.

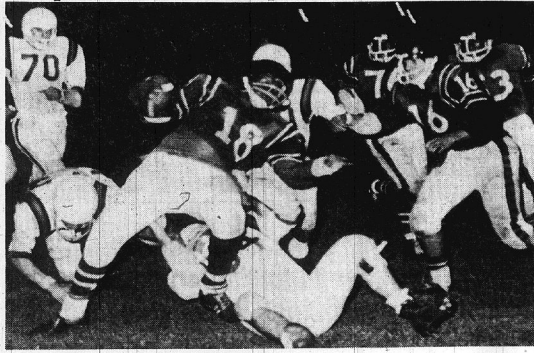

"There'll be big competition this week on who will be the quarterback," the coach predicted. The Trojans were penalized yardage and downs for illegal procedure and off-sides many times, including a 35-yard pass from Lewis to John Ervin which was called back.

The Madison defense allowed only two sustained drives and neither led to touchdowns. In the first half, Triad could rush for only 22 yards.

**Fumbles Hamper Triad**  
The Knights lost three fumbles, lost 30 yards to penalties and punted five times, averaging 27 yards.

Sue Weiser, who previously had excellent throwing success for the Knights, threw 19 times, connected on seven and had one intercepted.

Madison netted 369 yards, 342 running and 27 passing for 20 first downs; lost one fumble; punted twice for an average 28.8 yards; and was penalized 90 yards.

yards. Of 11 Trojan passes, three were completed and one was intercepted. Madison opened the game with an onside kick which it recovered on the Knights' 40. The Trojans ran a series of downs and yielded the ball.

After the Knights punted, a four-first-down march ended as Shaw carried four yards for a touchdown. The kicking conversion was blocked.

The Knights ran a series of downs and punted, the Madison receiver fumbled and Triad got a b b b d ball five yards from the goal line. On the second play, Wade Reinheimer entered the end zone to tie the score.

**Two GC Elks Take Top Golf Honors**  
Two Granite Cityers captured individual trophies in the Southwest District Elks golf tournament yesterday at Arlington. The annual event, attracting 32 entrants from East St. Louis, Litchfield, Carlinville and the Quad-Cities, was hosted by Elks Lodge 1063.

Carl Paschoff of Granite City took the low gross match, with Edward Schaeffer of Carlinville, runner-up. Top honors in the low handicap were taken by Harold Matton of Granite City, with Edward Beasley, Carlinville, second.

The lodge trophy, awarded to the best four-man team in the tournament, went to four Carlinville players.

score. The running conversion Early in the second quarter Madison marched to the Triad 25 and fumbled. After an exchange of kicks, James intercepted a pass and then time ran out.

Three TD's by James  
Madison began the third quarter by driving from its 46 with four runs by James, a 15-yard penalty and a short gain by Shaw. James then ground out more yards for the TD. The point-of-kick missed.

Triad gave up the ball and MIS marched and passed for five first downs to the Knights' eight-yard line, ending the third quarter.

**Mendoza Soccer Team 2-1 Winner**  
The improving Mendoza 2-1 Sporting Goods soccer team defeated Kulis 2-1 at Carondelet park in St. Louis Sunday.

Ruben Mendoza, coach, said, "The defensive unit was outstanding and the forward line made fine moves." Bobby Galvan scored both goals.

## Venice Council

The first allocation of state income tax funds amounting to \$102.

While the amount of the allotment brought a chuckle from council members, Mayor Lee remarked that he didn't feel it was "anything to laugh at."

The mayor said the amount undoubtedly will increase monthly as income tax payments to the state become more regulated and that "even this \$102 is \$102 more than we had last month."

The state could have kept all of the income tax and we could have got nothing," the mayor added.

## Bridge Traffic Report

McKinley Bridge Manager Henry McMullen reported that September bridge traffic totaled 261,114 vehicles, or an average of 8703 bridge crossings per day.

September was the last month of the bridge fiscal period, and traffic for that month brought to 3,263,344 the total volume of vehicular crossings during the last bridge year, McMullen reported. This, he said, was an average of 8776 crossings per day for the entire year.

## Joint Meeting Tuesday

Mayor Lee announced plans for a combined meeting of the Venice and Madison council members at the Madison fire hall Tuesday night to discuss a new comprehensive development program completed by the Southwestern Illinois Metropolitan Area Planning Commission.

The mayor said representatives of SIMAPC will be present to explain the program and

As yet unnamed, the St. Elizabeth group of volunteers tentatively scheduled its second meeting for Thursday evening, Oct. 16.

Rev. Lawrence J. Mattingly, St. Elizabeth pastor and an officer in the local CD organization, was present at the planning session and expressed enthusiasm for the proposed program.

## Woman Hurt Sept. 21 Still in Hospital ICU

Mrs. Grace Barnhart, 4908 Kirkpatrick Homes, is in fair condition in the Intensive Care Unit of St. Elizabeth Hospital, where she has been a patient since suffering serious injuries Sept. 21, in an automobile accident.

The woman incurred the injuries while a passenger in an auto operated by her husband, Robert Barnhart, which was struck by a vehicle driven by Clarence Bradley, 1020 Calhoun street, Venice, at the intersection of 20th street and Madison avenue at 3:15 p.m. Sept. 21. The crash caused a traffic signal to be knocked down and damage to a fire hydrant.

Mrs. Barnhart sustained fractures to the skull, pelvis, both hips and left leg and ankle. A family spokesman said the right arm and hand also was crushed when Mrs. Barnhart was thrown from the car and a wheel ran over the arm. ## Inflation, Crime Boost Insurance Costs

Premium costs on Illinois homeowners' insurance have been increased as high as 28% in some areas under a combination of factors that resulted in a loss of 16 cents on the dollar for the insurance industry during 1967. It was learned from Quad-City area insurance representatives today.

The rate increases, which became effective Oct. 1, result from inflation, more home burglaries and the tornadoes of 1967, according to insurance spokesmen.

The boost in rates has been approved by Illinois Insurance Director James Bayler and range from a low of 5% for renters to as high as 28% for home owners with comprehensive insurance plans, with the premium cost on the volume of insurance involved.

A spokesman for a Granite City insurance firm that specializes in homeowners' insurance described the new rate schedule as "quite a jolt" and cited as one example the premium cost on an \$800 frame home for which the three-year premium for general coverage now is \$132, or up 28% under the new schedule.

From \$192 to \$249, he said, the premium of \$192 for three-year coverage on a \$15,000 home will now be \$249, up slightly less than 10%.

Higher cost of replacement parts and labor is one of the principal factors making the higher rates necessary, one spokesman said, although the great increase in home burglaries, which are covered in

most homeowner insurance policies, has had a decided influence on raising the rate schedule.

The average "good" home of today which represents a "labor cost" investment of about \$220 will, in a few years, represent a labor cost of \$600 because of rapidly rising wages, scales, it was pointed out. This means the cost of replacement substantially raises the risk of the insurance industry.

"Within the next year," an insurance firm representative said, "the cost of replacing a storm door, which is now about \$48, will rise to about \$72."

The Insurance Information Institute, which is the public relations branch of the insurance industry, pointed out that a phase of inflation is reflected by the construction cost index of the U.S. Department of Commerce showing that construction costs have risen 25% since 1964.

Theft Rate Climbs

The institute also noted that nighttime burglaries have climbed 91% since 1960 and daytime burglaries have increased 247% during the same period, according to FBI records. The institute said that a third factor in raising premium rates was the effect of tornadoes which struck northern Illinois in 1967. The rate increase is based on figures compiled for 1967 which is the last year for which complete statistics are available.

According to 1967 figures of the Illinois Inspection and Rating Bureau, insurance companies "paid out \$1.16 in claims and operating expenses for every dollar collected in premiums in 1967."

bilt Divinity School and many other institutions of learning. He has been a featured guest speaker at several campus "Religion-in-Life Week" and "Religious Emphasis Week" programs. For years, he has been a faculty member of the various Baha'i schools in the U.S.

## Pollution Control Requires High Priority, Sacrifices

Control of air and water pollution has passed from the areas of technology and legal aspects to the political arena, Clarence W. Klassen, chairman of the Illinois Air Pollution Control Board, told industrialists Thursday.

Klassen was a featured speaker at an afternoon and evening conference sponsored by Illinois Power Co. and attended by industry leaders from the company's Galesburg service area, which includes Galesburg, Keokuk, LaSalle and Monmouth.

The afternoon portion included a boat trip down the Illinois River from Starved Rock State Park to 19's Hennepin power plant. The evening meeting was at LaSalle.

While many are making political capital on air and water quality control, it is an indication of the public's active interest in the problem; it is a problem which must be met head-on in as short a time as possible, Klassen said.

Air and water pollution control is not just a dark cloud that will pass away, Klassen warned, and it must be given priority, just as production planning.

**"Industry Is Everyone"**

While the burden of pollution control may lie on industry management, Klassen said, industry today is everyone—every person who owns stock in a company.

There are," said Klassen, "the pollution hypocrites who wave the flag for better control of air and water quality but balk when that control means some loss in dividend or even inconvenience to themselves."

Illinois Power Company's efforts toward control of water and air pollution was explained by E. A. Shultz, senior vice-president of the company.

The latest in air and water pollution control equipment is being installed in the company's new Baldwin power plant in southwestern Illinois.

**99% Flyash Removal**

At older plants, which at the time they were built had the most modern control devices, additional controls will be installed. These include electrostatic precipitators which would remove 99% of the flyash from the stacks.

There has been, also, a switch to fuels other than coal when they are available, to cut down objectionable plant emissions, it was noted.

Illinois Power also is studying the control of sulfur oxides from burning coal, one area in which considerably more research is viewed as necessary.

Wendell J. Kelley, president of Illinois Power, said a basic responsibility of the electrical utility industry is to raise questions and help provide citizens with accurate information upon which to make judgments after they know the costs and the consequences of various choices in the realm of air and water pollution control.

Give Up Some Things  
"As a nation," said Kelley, "we may have to give up some things in order to have others."

Moderator for the conference was H. E. Meentem, senior vice-president of Illinois Power.

Among hosts for the conference were A. E. Kaysor, Galesburg service manager; district manager, V. L. Wilson, LaSalle; J. B. Messaglia, Ottawa; E. R. Funk, Keokuk; E. J. Chamberland, Monmouth; and E. V. Chevillat, Alton; and personnel from Decatur headquarters of Illinois Power.

## Airport Terminal Plan Endorsed by Secretary Volpe

John A. Volpe, U.S. Secretary of Transportation, has endorsed the Intermodal Terminal Complex proposal of the Regional Industrial Development Corporation (RIDC), Dr. Delyte Morris, chairman of the board and president of Southern Illinois University, has announced. This brings to 76 the number of organizations and individuals who have endorsed the proposal.

The Intermodal Terminal Complex (ITC) proposal urges that the second major St. Louis metropolitan area airport, proposed for southern Illinois, also serve as a hub for integrating barge, rail, highway and pipeline terminal facilities to expedite freight movements.

Sverdrup & Parcel and Associates, St. Louis-based engineering and architectural firm, has been engaged to prepare an initial design concept of such a terminal facility. Dr. Morris added, it features the proposed airport as the nucleus of the complex.

Noting that the Department of Transportation "has followed with great interest" the ITC plan, Secretary Volpe said, "We feel that efforts such as this bring us one step closer to the realities of a true transportation system."

### FAA Recommendation

"As you are no doubt aware, the Federal Aviation Administration recommended in its latest National Airport Plan the construction of a new air carrier airport for St. Louis. This means that we shall lend our support to the development of this facility when things are ready to proceed at the local level."

"I realize that you still have many problems to resolve before this project can be undertaken, and wish you the best of luck in your efforts."

The Department of Transportation expressed early interest in, and support for the ITC proposal at an RIDC-sponsored seminar June 30, when Honorable James D. Braman, Assistant Secretary for Urban Systems and Environment, discussed the importance of integrated transportation facilities to the economic future of the bi-state region.

"I think one of the most heartening prospects on the horizon is the concept of the intermodal terminal, where each of the transportation modes, by careful planning, meld into a single transportation focal point. It's an exciting concept... one of the future," Secretary Braman said.

### First in Mid-Centinent

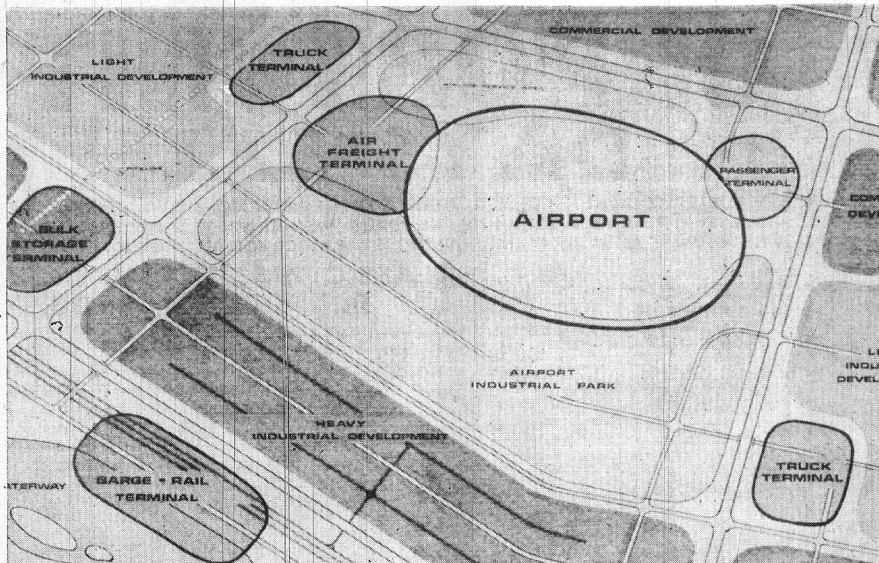

"Such a complex would function as the focal point for your region's barge, rail, air, road, truck and pipeline terminal facilities" and would be the first mid-continent transportation complex in the nation. Coupled with your central geographical location, you could fully exploit your position in the center of the U.S. population.

"As a new concept I think the establishment of an international airport which could serve as a general aviation airport as well as the nucleus of an intermodal terminal complex should be given every consideration."

The Greater St. Louis Labor Council, AFL-CIO, has unanimously endorsed the proposal and sent a letter to over 500 area union, civic and fraternal groups urging that they endorse the ITC concept.

On July 11, the Council of Southern Illinois Building and Construction Trades business representatives, AFL-CIO, endorsed the concept and pledged that there would be no work stoppages due to jurisdictional disputes during the construction of the facility.

## County CD to Initiate Community Shelter Plan

Madison County Civil Defense Director Ted Todoroff of Granite City said today that plans are under way for a Community Shelter Plan (CSP) throughout Madison county during the next fiscal year.

"The Community Shelter Plan is conducted at the state level through the Regional Civil Defense office," Todoroff said. "This plan involves Civil Defense personnel from the state and regional offices making a joint study in a designated area, attempting to find additional shelter space as required; and to designate geographic areas and assign individuals from available shelter areas."

Todoroff noted that the report brought out comments by a county official who owns the largest hardware store in Robinson. Ivan R. Miller, who said, "We had limited civil defense capability in Crawford county. With the functioning of CSP, I believe local emphasis became greater, and national emphasis lesser. Civil Defense is a matter of education and learning about emergencies is one thing all good people would rather put off."

"If it weren't human to defer solutions to vital problems, we wouldn't need government officials. Government must provide the necessary leadership to protect the public from natural or nuclear disaster."

Quoting a report from Crawford county, Todoroff stated, "An extremely effective approach to fallout shelter planning now being accomplished in Crawford county resulted in an awareness of civil defense in general, never before attained on the local level."

"Elected and appointed officials are viewing long over-looked responsibilities with a new air of enthusiasm and interest."

Attending were Karen Davis, Patty Greco, Paula Laster, Cindy Starr, Cindy Boyd, Karen Neese, Robyn Fitzhugh, Jennifer Miles, Abbie Cotter, Donna Blackard, Carrie Cotter, Tina Taylor, Dana Hackett, and Green. Pam Richardson, Colleen Cornelison, Beverly Duncan and Beverly Cameron.

## Man Arrested in Venice Named on Four Charges

Harold Walker, 25, of 73 Greiner Homes, Madison, was arrested by Venice police at 9:45 p.m. Saturday after officers had been called to the apartment of Doris Brown, 40, of 210 Weaver street, who alleged Walker had beaten her. Walker refused to let police enter the apartment and fled out a rear door and down an alley when officers forced the door, according to the police report. Walker was charged with assault and peace disturbance on a complaint of the Brown woman. (Additional charges of making criminal threats and resisting arrest were filed by police officers.)

## Three Cars Damaged

Three cars were damaged at Second and Jackson streets in Madison about 7:15 p.m. yesterday as the result of a collision of two cars, one of which first struck a parked auto, police reported. Turnage, 1207a Logan street, Venice, then collided with a car driven by Lucious Sheard of St. Louis.

## Regional Development, Research Affiliation

Plans have been completed for affiliation of the St. Louis Research Council with the Regional Industrial Development Corporation, it was announced today. Dr. George E. Pake is board chairman of the Research Council and Dr. Delyte W. Morris, SIU president, heads the RIDC board.

The affiliation is regarded as the first step toward unification of regional economic development activities, including joint solicitation of support necessary to finance such efforts.

The two groups will retain separate identities while linking their activities in a way intended to be synergistic, strengthening both. The Research Council emphasizes technical research and RIDC, economic research.

Economies are expected to be achieved through the affiliation, with increased effectiveness in identifying, analyzing and solving economic problems facing St. Louis and the surrounding areas of Illinois and Missouri.

Both organizations use a "systems approach" to urban problems with their technoeconomic research. Both focus on development without being encumbered with other public affairs and responsibilities.

A regional economic information system is to be completed by the end of 1969 and tested in early 1970. At the same time, efforts will be made to acquaint government agencies and firms outside this region with the St. Louis area's potential for developing increased scientific capacity.

Plans call for the RIDC board of directors to include Ralston Purina and UMC Industries; all other Research Council board posts already are represented on the RIDC board.

The affiliation is viewed as "a dramatic as well as effective example of the private sector's willingness to create a single new regional institution that can mobilize all appropriate leadership resources, develop the expertise to assemble all facts necessary to its function, and act on behalf of the entire region with due recognition of the interdependency of all its parts."

## Pontoon-Nameoki Crash

Autos turning from opposite directions onto Nameoki road from Pontoon road collided at 4:15 p.m. Saturday. The motorists were Kathryn Sullivan, 2127 Grand avenue, and Loretta Gaudette, 1218 West Pontoon road.

Ernie Mentola, State Park Place, was sentenced Thursday to a term of two to three years in the state penitentiary at Menard by Circuit Court Judge James O. Monroe.

He had been found guilty of a charge of armed robbery and was found to be essentially competent by a Granite City psychologist. He was one of four youths charged with terrorizing a Venice family for several hours last February.

They are Levell Johnson, 1514 Marchbanks and Robert Lee Moody. Moody also faces a weapons charge in connection with the burglary as he was found with a .45 caliber pistol underneath his shirt.

It was the third conviction for Moody in six years. The others were in 1965 for burglary and 1965 for armed robbery. The trio was given 30 days in which to file post trial motions.

Roger Dale Wallace, 21, of 2801 Warren avenue, was bound over to the Madison county grand jury on a charge of aggravated battery in magistrate's court. He was held in \$1000 cash bail as a motion to release him on his own recognizance was denied.

## Area's Traffic Deaths Triple in 3 Months

The Quad-City area traffic fatality ratio, showing every indication of setting a new low record during the first six months of this year, has skyrocketed during the last three months to within only one fatality of the record high fatality toll for the first nine months of 1968. A survey of accident statistics revealed today.

Traffic accident records for September include three fatalities and 81 persons injured in a total of 179 accidents. The three September fatalities, added to six in August and nine in July, increases to 18 the total number of traffic deaths in the

occurred in the area. During April and May of the first six months of this year, not a single traffic fatality was reported for more than 60 days—an all-time record so far as can be determined from available traffic records.

Near Last Year's Record  
Thus the area's traffic death toll during the last three months is twice that of the previous six-month period. This means that at the end of June, the area's fatality record was only 36% of what it was for a similar period in 1968, but by the end of September had jumped to 96% of last year's nine-month toll, also for a similar period.

The 27 traffic deaths in the area so far this year is equal to the 27 traffic deaths of 1967—a figure which jumped to 35 for the 1968 year. Three months of this year still remain, two of them considered "bad weather" months in which the fatality rate usually is high. In October, November and December of last year, seven persons died in traffic accidents during the last three months.

During the first six months of the year, January through June, only nine traffic fatalities

deaths; and in the same three-month period of 1967 there were 11 traffic deaths.

At the same time, traffic statistics show a decided increase in the number of accidents occurring in the area during the first nine months of this year over the accident ratio for the same period of 1968.

More Accidents Reported  
The 179 accidents reported in the Quad-Cities during September brought the nine-month total for this year to 1935, 212 more accidents than the 1723 recorded for the like period of 1968.

September's 81 injury cases increased the nine-month injury total to 896, or 64 less than the 960 injuries reported during the same period of 1968.

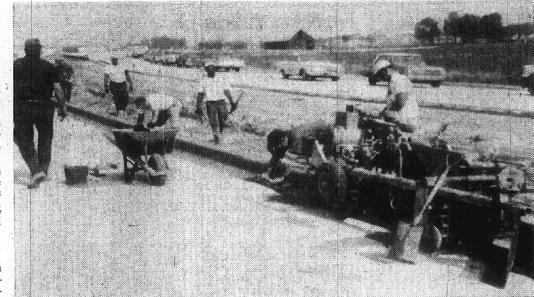

Records show that the largest number of accidents occurring in any single month this year occurred in April when 241 accidents were reported to Quad-City authorities. The largest number of injury cases in a single month was reported in May with 132 persons injured and no fatalities.

Accident statistics so far this year, showing the number of accidents, number of injuries and number of fatalities, in that order, are:  
January, 215-115-4; February, 202-83-1; March, 226-108-1; April, 241-125-0; May, 228-132-0; June, 228-123-3; July, 222-126-0; August, 194-82-6; September, 179-81-3.

## Higher Bridge Fare Slows Revenue Loss

Higher toll rates initiated on the Venice-owned McKinley bridge a year ago substantially slowed the pace of revenue losses during the fiscal year just ended, although the volume of traffic using the bridge continued to slide downward.

While traffic patronage fell off another 717,806 vehicles during the last fiscal, Oct. 1, 1968, to Sept. 30 this year, revenue for the year declined only \$31,346, according to records just completed for the past year by Bridge Manager Henry McMullen.

This was a considerably lower loss than suffered the previous year—Oct. 1, 1967, through Sept. 30, 1968—when revenue plunged \$299,081 below the income of the 1966-67 fiscal period.

### Other Bridges Complete

The new toll schedule was placed in effect on Oct. 1, 1968, first day of the fiscal year, upon the recommendation of a New York traffic engineering firm which made a three-month survey of bridge operations early last year to determine means of offsetting a declining traffic load resulting from opening of the toll-free Chain of Rocks 1-270 bridge and the Poplar Street bridge in East St. Louis.

Records for the first full year of operation under the higher fare schedule show that revenue for the past fiscal year totaled \$1,273,408, or \$31,346 less than income of \$1,304,754 during the 1967-68 fiscal period, while a patronized the bridge, compared to \$1,918,950 paying tolls during the 1967-68 year.

The influence of higher toll payments in offsetting revenue loss is seen in the fact that these figures reflect an 18% decline in bridge traffic during the past fiscal year, while the drop in revenue amounted to only 2.3%.

Losses Total \$330,427  
The continuing loss of both toll and revenue, however, still leaves the city of Venice in

poor financial straits so far as the bridge operation is concerned. The loss of \$31,346 in revenue for the year just ended and the \$299,081 loss the previous year is a reduction of \$330,427 below the normal revenue income of \$1,603,925 of the 1966-67 year before the two toll-free bridges absorbed much of the McKinley bridge traffic.

The toll-free Chain of Rocks bridge spanning the Mississippi north of Venice was opened in the late fall of 1968 while the Poplar street bridge at East St. Louis opened to traffic in November 1967.

Since those two bridges went into use, the McKinley bridge has suffered a three-year traffic decline of 1,887,235 vehicular crossings below the traffic level of the 1965-66 fiscal year, which is considered a normal or "average" year in which operations were unhampered by toll-free bridges in the immediate area.

Total traffic volume for McKinley bridge during the 1965-66 fiscal period was 5,088,558 vehicular crossings.

Traffic Volume Drops  
With the opening of the Chain of Rocks bridge which carries Interstate Route 270 in late 1966, McKinley bridge traffic dropped to a total of 4,900,686 vehicular crossings during the 1966-67 fiscal. This was a traffic decline of 97,874 vehicles.

Much greater effect was felt from the Poplar street bridge opening, however. McKinley

bridge traffic for the 1967-68 fiscal year, during which the Poplar street bridge was in use ten months, totaled \$318,850 vehicles, a decline of 1,071,715 below the total of the previous year.

Bridge revenue for the 1966-67 fiscal year, records show, amounted to \$1,603,925. The decline of more than 1 million vehicles in the traffic load during the 1967-68 year resulted in a revenue cut of \$299,081 to total income of \$1,304,754 for that year.

Income Down Again  
This was followed by the \$31,346 decline in income for the year just ended which totaled \$1,273,408.

The reduction in income resulted from dwindling traffic volume has caused the loss to the city of Venice of the \$100,000 per year it received for operating the bridge and has caused three defaults in payment of interest on bridge "B" bonds.

The city was unable to meet \$110,000 in "B" bond interest on Oct. 1, 1968, defaulted on a like amount on April 1 this year and announced another \$110,000 default last week. The defaults totaling \$330,000 were reduced slightly by payments of about \$42,000 last April.

### County Heart Group Elects New Officers

The new president is S. Harold "Cotton" Roberts of Alton. Other officers are Mrs. Robert Wezel of Edwardsville, secretary, and Harold Patterson of Alton, treasurer.

Quad-Cityans named to the board are Charles Rodell and Mrs. John Nenniger of Granite City and Verna Lengyel of Madison.

## Area Has Wet September: Rainfall--5.54 Inches

After experiencing the driest August in 39 years the Quad-City area reversed the weather pattern for a real wet September with 5.54 inches of rain, slightly more than double the September normal of 2.76 inches.

What is more, rain was recorded on only eight days of the month and 4.62 inches of the total fall occurred on only four of those days. The September rainfall was 5.45 inches more than the August rains which totaled a paltry 12 inch.

Heaviest rainfall in September was recorded on Sept. 17 with a total of 2.33 inches, following a fall of .37 inch the previous day. A fall of .46 inch was recorded on the Chain of Rocks locks rain gauge on Sept. 4, another .26 inch on Sept. 5 and 1.33 inch on Sept. 7. A light fall of .04 inch occurred on Sept. 11.

Consequently, 5.29 inches of the entire 5.54-inch total for the month was recorded during the first 17 days of the month. Rain

fell on only one day between Sept. 17 and 30. That was last Saturday, Sept. 27, when .25 inch was registered.

Well Above Normal  
September rainfall brought to 34.67 inches the total fall so far this year, or 7.62 inches above normal for the first nine months of the year.

Despite the almost completely dry month of August, extremely heavy rains in June and July more than made up for the August loss.

In June a total of 6.86 inches was recorded in the area and in July a total of 8.9 inches of rain fell, resulting in flooding conditions throughout the area. The June rainfall was 2.89 inches above normal and the July fall was 3.70 inches above normal.

Rainfall by months so far this year, with monthly normal in parentheses, include: January, 4.29 inches (1.98); February, 1.58 inches (2.04); March, 2.14 inches (2.34); April, 3.60 inches (3.71); May, 1.54 inches (3.73); June, 6.86 inches (4.27); July, 8.90 inches (3.20); August, 12 inch (3.02), and September, 5.54 inch (2.76).

#### In Memoriam 33

In loving memory of CONNIE  
E. HALBKROG, who passed  
away on Tuesday, Oct. 6, 1969.  
Though you're gone and I remain  
I'll live in memory again.  
With happy days we've known.  
In spring I'll watch the roses  
When faded lilacs bloom.  
In early fall when brown leaves  
fall,  
I'll watch a glimpse of you.  
We've known so much of  
happiness,  
We've had our cup of joy.  
In memory of my dear  
CONNIE.  
Is one gift from God that death  
can not destroy.  
Wife, OPAL. 31-106

#### In memory of WILLIAM G. WADLEY, Oct. 8, 1966.

Sally missed by the family.

#### Arson Suspected in State Park Motel Fire

Suspicion of arson was being  
investigated during the week-  
end following a fire at State  
Park Motel, on Wednesday after-  
noon.  
\$2500 to the front room of the  
office scene of the motel.  
Several people were entering  
a muffled explosion at the  
motel, scene of a vice raid the  
previous weekend, and George  
Zabarkas, 78, proprietor, re-  
ported that a State Park man  
had threatened to burn the mo-  
tel and "beat his head in."  
Zabarkas, who was charged a  
week earlier with keeping a  
place of prostitution and pro-  
curer, told deputies that he  
had been at the office of the  
state's attorney in Edwardsville  
to obtain a warrant for the  
arrest of a man, but the de-  
puties were unable to locate the  
suspect.

#### State Park firemen could find no evidence of a bomb being used, and the fire apparently had smoldered before getting sufficient oxygen to flare up.

#### Suffers Cuts on Arm

Larry Schrader, 300 Missouri  
avenue, was treated at St. Eliza-  
beth Hospital for cuts on his  
right arm allegedly suffered on  
a garage window at Niedring-  
haus avenue and Chestnut  
street at 6:40 p.m. Friday.

### Re-enlistment Policy For Army Announced

Men and women who have been honorably separated from another branch of the Armed Forces now may re-enlist into the Army without obtaining prior permission from the Enlistment Eligibility Activity at St. Louis, Sgt. Morris L. Cook, local recruiter, announced.

Such re-enlistments must occur within a year of the individual's separation from service. The Army stressed that the person re-enlisting must meet standards cited and must present an honorable discharge. Eligible applicants will be re-enlisted in the Army in one grade lower than held when separated from service, but in no case higher than E-7, Sgt. Cook said.

Further information on the new policy is available at the recruiting office, 1208 Niedringhaus avenue.

The Smith group was formed in 1955 while Smith was a graduate student at the University of California. In 1958 the group toured Europe, performing at the Brussels World Fair. This was followed by a widely acclaimed U. S. tour.

A technique used in 16th century Venice—with singers performing from the stage as well as from the sides and back of the auditorium—has been revived by the Smith group, providing a stereophonic effect for

## Students of Venice Center Being Trained at Hospital

A highly successful course of instruction at Venice-Lincoln Technical Center will graduate its third class of students Thursday, Oct. 16, with the 14 women expected to receive certificates considered even better trained and equipped than the graduates from earlier programs.

The expanded instruction, which better prepares graduates of the experimental "personal services" course for future jobs as nurse aides, or continued training in more advanced fields, includes on-the-job experience at St. Elizabeth Hospital, Duane Rankin, Venice-Lincoln principal, reported this week.

This week and last week, the students are receiving practical instruction while working from 8 a.m. to 12:30 p.m. each day alongside staff members at the hospital.

The students are concentrated on the medical floor under the supervision of Miss Darlene Davlan, a registered nurse and the course instructor, plus St. Elizabeth staff nurses.

It is the first time that on-the-job experience has been available to those enrolled in the Venice-Lincoln training program, Rankin said.

### IOOF Lodge 1031

#### Installs Officers

Tri-City Lodge 1031, IOOF, held an installation ceremony Thursday evening at the lodge hall in Madison.

Those installed were Troy York, noble grand; William Salmon, vice-grand; George R. Ruby, recording secretary; James Gann, financial secretary; and Kenneth Williams, treasurer.

The ceremony was conducted by Earl Wright of Six Mile Lodge, Granite City, installing officer.

Appointments included Troy York and William Salmon, initiatory degree captains; Olin King and George Ruby, first degree; Russell Gall and Ruell Rose, second degree; and Harry Orrell and James Gann, third degree.

A chicken dinner and supper will be held at the lodge hall Nov. 28 from 11 a.m. until 7 p.m.

In two previously conducted courses, one ending last January and one in May, all training was given at the technical center, located on South Fourth street, Venice.

#### Model Hospital Room

The adult vocational school, operated by the Venice school district and funded with federal and state allocations, is equipped with a model hospital room, including two hospital beds and other equipment in which students learn all phases of patient care, Miss Davlan said.

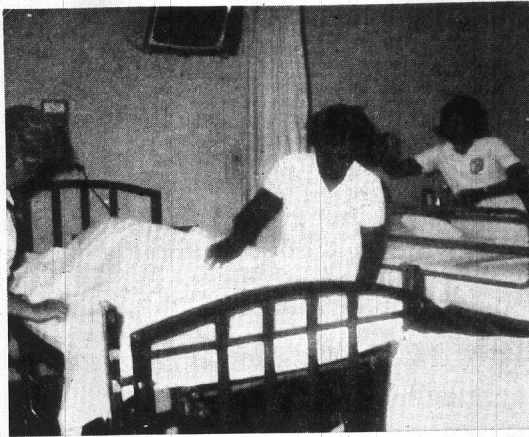

"The added advantages of working in a hospital, observing general routines and handling live patients instead of models or another class member, however, affords the students practical experience which is invaluable," she pointed out.

She explained that the students already have completed all theoretical and practical segments of the course, with the current on-the-job experience in the nature of postgraduate work.

Among the 18 graduates of earlier courses, two women are now employed at St. Elizabeth Hospital, three are working at Jewish Hospital, St. Louis, two more have since become Licensed Practical Nurses after additional training, and another pair of students is studying at Grady Clinical Training School, St. Louis, to become medical technologists.

Those enrolled in the two previous courses ranged in age from 18 to 43. All were unemployed prior to starting the course and all but two received some form of state aid.

Focus of the Course Changed  
Miss Davlan, who holds a master's degree in guidance from Southern Illinois University and formerly served as embassy nurse at the U. S. Embassy in Burma, said the personal services course initially was started to provide training for persons to work in the

home; possibly to assume the care of an invalid or chronic patient, and care for the home and family in case of the temporary absence of one or both parents.

"For a number of reasons, the course in its offering for the first time took on much more of the nursing aspect and less of the domestic work. Consequently, in the two subsequent courses, we continued to stress the nursing trend, as this appealed to the students," she explained.

"Students completing the instruction are far more than adequately trained for nurse aides and could assume that job with confidence," she noted. "All are less than a licensed practical nurses, but those displaying further competence are to be encouraged and aided in

pursuit of the LPN training."

Miss Davlan said that on recent field trips to the John Cochran Veterans Hospital, St. Louis, and Scott Air Force Base Hospital, Belleville, each student took the Civil Service entrance examination and eight of the 13 women sat for pre-entrance tests or LPN training. The test results have not yet been received, but she expects at least five women to enter LPN courses.

#### CD Medical Self-Help

Major aspects of the personal services training course include a civil defense medical self-help course in disaster training. This instruction provides the student with more comprehensive knowledge in first-aid and emergency care than regular or advanced first-aid courses thereby permitting each stu-

dent to respond quickly to aid an ailing person, she said.

The course also includes nursing techniques, from which the students learn procedures for taking temperature, pulse, respiration and blood pressure, how to prepare and give a bed bath, draping of patients for examination and techniques in feeding a bedfast person.

Other instruction encompasses proper use of each piece of equipment in the home and sick room and the cleaning, care and storage of such equipment.

Classes in health study explore such topics as anatomy, physiology, public health in epidemiology and community health resources, nutrition, special diets, mental diseases, personal grooming, telephone usage and food arrangements to tempt a patient.

He was arrested for careless driving and for failure to stop at the scene.
